

Latest News!

Welcome to Geilston Halls Latest News pages..

We're delighted to be sharing the latest developments in our Preservation, Restoration and Renovation project. The project has a number of phases, which were unfortunately significantly delayed due to covid. However we're back on track and looking forward to working with the Cardross community to build on the work we started and develop this in the years ahead.

Come join the group..

The hall committee are a small but welcoming group and we're always delighted to have new members join us in any capacity. If you'd like to know more and join the committee as a Trustee or just as a 'Friend of' don't hesitate to get in touch. [Contact Us](#).

AGM – September 2024

The Geilston Hall Management Committee held its annual AGM in the hall and elected office bearers provided annual reports to Trustees and interested parties. Annual accounts were submitted to OSCR.

Preservation, Restoration & Renovation Project

Our Committee have been working hard to make up for the significant delays to our hall renovation plans and have refreshed our Preservation, Restoration and Renovation Project plans.

We're sure you've seen the work completed mainly to the Woodland and Gardens surrounding the hall. The safety of hall users is paramount to the committee and we listened to feedback, especially from our youth groups about having a safe and secure outdoor area, away from the busy main road. This coupled with the practical aspects of an increased parking area as the pick and drop off times for youth groups became particularly troublesome and concerning in our dark winter months.

We've put together a small [video diary](#) of our very early developments and would love for you to take a look under our new Videos & Presentations tab. We're grateful to all the groups and companies who have supported us in this first phase and we look forward to working with many of you again as we build momentum through the project.

So What's Next?

We're currently in the planning stages of a major piece of renovation, which is to have the hall roof and guttering fully replaced and repaired. So not the smallest of jobs and one which we must undertake within the parameters of the halls listed building status and giving cognisance to the original design and features which we want to see retained.

We're delighted to have engaged the services of ZM Architecture and specifically the experience of Nick Blair as we embark on the early scoping and funding support for this major project noting our commitment to the conservation of the building in our restorations.
