

BOGLEHA BOWLING CLUB- ENVIRONMENTAL STATEMENT-MISSION STATEMENT

Bogleha' Bowling Club is fully committed to provide excellent bowling and club facilities for the benefit of all Members, guests and facility users. It will do this with full regard to all aspects of environmental sustainability.

Bogleha BC has adopted a statement relating to its environmental policy . This policy must be adhered to by all Members.

The Club shall:

Promote high standards of environmental management and minimise any adverse impacts on the environment.

The creation of waste is minimised and its disposal is made through safe and responsible methods- using designated waste recycling bins where possible and giving consideration to reducing food waste when catering.

Recycled materials or those from a sustainable source are to be used whenever possible.

Energy efficiency within the Club is encouraged at all times- Consideration will be given to Energy Rating while purchasing new appliances. Heating to be kept on timer where possible.

Water should be taken from the rain water-butts for general outdoor use where possible.

Car sharing and the use of public transport is advocated .

The Club will use local contractors and providers whenever these skills and materials exist locally

Each member of the Club will be responsible for participating in and for following the environmental policy. The ultimate objective is to conserve the Club's facilities for the enjoyment of all, while protecting wildlife and the environment
